Did you know? Etherscan's Gas Tracker gained popularity during the DeFi boom. By displaying real-time transaction fees, it helped users plan their swaps and NFT mints more strategically to avoid overpaying.

Huobi founder Li Lin wants some of that alpha and has reportedly raised about \$1 billion as part of a strategy to invest in an Ether treasury.

“We still see resilient liquidity conditions, a strong macro backdrop, and supportive regulatory dynamics.”

But the second problem with the code-is-law idea is more damning. While the model of regulation suggested here so far has been of a reactive system that arises to fill the need for authority, some political scientists — realists — view it the other way.

The performance of some of these AI models could also be improved with the right prompt, particularly for ChatGPT and Google's Gemini, according to strategic adviser and former quantitative trader, Kasper Vandeloock.

They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on whether the nation's political institutions can restore consensus amid deep division," they said.
