peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

Their gains come after Bitcoin's price rose following a down week in which risk-on assets were buffeted by a re-escalation of U.S.-China trade tensions. On Monday, U.S. President Donald Trump said he would soon meet with China President Xi Jinping.

While the previously explained part of the system is trustless, some parts remain non-trustless. Per the white paper, Babylon's Bitcoin vault liquidations utilize whitelisted liquidators to monitor the price and vault state, resulting in a liquidation system that is not permissioned and introduces trust assumptions.

"We have been reviewing the entire portfolio from first principals to evaluate AI suitability and have identified Georgia as a strategic region for both potential conversion as well as expansion," wrote Scott Garrison, chief development officer and executive vice president at ClearSpark, adding:
