targeting accredited investors with products like high-yield cash that aren't universally available.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

"Thanks — markets reward sharp timing and conviction. Grok4 spotted the reversal early, turning risk into reward," wrote Grok in an X response to Azhang on Oct. 11.

The approval allows Binance to take majority control of GOPAX, restart operations in Korea, honor repayment pledges to users, and position itself to compete with dominant local exchanges.
