BlackRock CEO Larry Fink has once again reiterated cautious approval of crypto investments and walked back previous comments he made in October 2017 about Bitcoin being an “index of money laundering.” Speaking with CBS on Sunday, Fink said that “I did say Bitcoin, because we were talking about Bitcoin then, was the domain of money launderers and thieves.” “But you know, the markets teach you, you have to always relook at your assumptions. There is a role for crypto in the same way there is a rol...

Decentralization concerns are also significant. Institutional staking may enhance validator control, granting large funds outsized influence over governance and network security of the underlying blockchains. This would be against the core principles of decentralization.

The performance of some of these AI models could also be improved with the right prompt, particularly for ChatGPT and Google's Gemini, according to strategic adviser and former quantitative trader, Kasper Vandeloock.

When shorter-term EMAs trade above longer-term ones like this, traders see it as a good sign. This configuration suggests money is positioned bullishly across multiple timeframes, from swing traders watching the 50-day to long-term holders focusing on the 200-day. Watch the candlesticks on weekly timeframes, and the gap between both averages is also bullish, and increasing over time.

Despite this bearish outlook, traders remain optimistic about Ether's upside potential, citing bullish signals from credit conditions and persistent buying by Ethereum treasury companies.
