The alleged mastermind behind a \$14 billion crypto scam, currently on the run from the U.S. government, has begun moving billions of dollars worth of Bitcoin to new wallets, according to on-chain data.

The price of Bitcoin soared to a new record high during Asia trading hours on nearly \$50 billion in trading volume over the last 24 hours, per data from

how to convert coins in binance

CoinGecko. As bullish traders piled in pushing the price upward, almost \$100 million in short positions were liquidated in just one hour, according to CoinGlass. More than \$200 million in BTC shorts were turned into forced buyers in the last 24 hours.

Code, in this construction, is not necessarily a removal of negative restraint but is instead just another instance of regulation, broadly construed. A restraint, manifested differently, that poses the same questions as any other form of restraint.

“Very soon better, fairer, more broadly accessible onchain investment platforms with healthy tokenomics will mature sufficiently so that VCs will have no choice but to set up shop on these platforms, if they want to stay in the game.”

The earlier plan positioned the token as significantly underpriced relative to its fundamentals.
