However, BTC continued to struggle near \$105,000, not benefiting from improved risk appetite after regional lenders delivered stronger-than-expected earnings, easing fears of a wider credit contagion.

Grayscale has played a central role in the institutionalization of crypto. Founded in 2013, it has grown into one of the world's largest digital asset investment platforms, managing over \$35 billion in assets. It has now launched staking-enabled products that bring blockchain yield mechanics into Wall Street's traditional framework.

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.
