The innovation of the Ethereum platform lies in that it is not only a cryptocurrency but also a decentralized computing platform. Ethereum supports the development and execution of smart contracts, providing a runtime environment for decentralized applications (DApps). The emergence of Ethereum has greatly expanded the application scope of blockchain technology, giving birth to numerous innovative projects. In recent years, the Ethereum network has also been

continuously upgraded and improved, such as the launch of Ethereum 2.0, which aims to solve the problems of network congestion and high energy consumption and improve the scalability of the system.

The phrase “code is law” is generally attributed to the academic Lawrence Lessig. The first chapter in his 1999 book “Code: And Other Laws of Cyberspace” is titled “Code is Law” and draws an analogy between the power vacuums percolating in Eastern Europe at the time (someone should check in on that) and the internet.

Ether's bear flag breakdown targets \$3,100

In the film, this is an argument based on moral intuition alone, without a principled basis and defended only by tautology. None of the ideas' advocates make the normative case for why code should be law, but there must be an instrumental basis for this philosophy beyond moralism.

The New York Stock Exchange's parent — Intercontinental Exchange — also made a \$2 billion investment in Polymarket, marking the company's valuation up to \$9 billion amid increased competition with Kalshi, which also has a multibillion-dollar valuation.
