Ethereum's bearish positioning is evident in Deribit's data, which shows "a large increase in open interest of puts since the end of August," Andrew Melville, head of research at crypto derivatives analytics platform Block Scholes, told Decrypt.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
