Catching a coin's name trending on X or in a Telegram chat isn't enough to justify putting capital at risk. Social buzz moves fast, and most spikes fade before price action catches up, or worse, they might be the result of coordinated shilling. That's why the next step is to turn raw noise into structured signals you can actually rank and compare.

As crypto prices slide on Thursday morning, odds are shifting on Myriad's prediction markets as predictors sway odds in favor of lower price targets for Solana and Bitcoin. Over \$40,000 has been put up against predictions on the major crypto assets' next moves.

"It's not exactly clear what happened, but somehow the president of Argentina was promoting this shitcoin, and Hayden was involved," he said. "I was really inspired by that."
