Code, in this construction, is not necessarily a removal of negative restraint but is instead just another instance of regulation, broadly construed. A restraint, manifested differently, that poses the same questions as any other form of restraint.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.

"Visually, the chart makes it clear that there is a major redistribution taking place: Bitcoin is moving from long-term holders into new addresses managed by ETFs," he told Decrypt. "As ETFs create demand, supply is being provided by old holders."
