All collected taxes, interest, and penalties would flow directly to energy affordability programs administered by the Department of Public Service in consultation with the Energy Affordability Policy Working Group.

In general, both retail and institutional investors continue to focus on buying and holding tokens for price gains rather than staking them. Operating validator nodes requires substantial capital, technical know-how and uninterrupted uptime. It also exposes participants to risks such as slashing penalties and custody challenges. Additionally, in many jurisdictions, the regulatory treatment of staking rewards remains unclear.

Ultimately Ben-Sasson said it's great that corporations want to adopt blockchain technology because it means "blockchains are no longer this scary thing anymore."

Traders who wait for confirmation look for above-average volume and a strong candle close to validate the move. Without those signals, the risk of a trap rises sharply.
