Another Bubblemaps analyst, the pseudonymous Deebz, added that sending tokens to an exchange doesn't prove that they were sold.

During a Senate Finance Committee hearing earlier this month, lawmakers debated whether everyday crypto payments should trigger capital gains tax and how to fairly classify income generated from staking services. Coinbase's vice president of tax, Lawrence Zlatkin, urged Congress to adopt a de minimis exemption for crypto transactions under \$300.

“The \$9 million transfer that Arkham and others have cited was simply a transfer to another wallet under his control. He did not send those funds to an exchange (yet),” he said. But he cautioned that it’s possible that World Liberty has access to non-public information that explains the blacklisting.

The flash crash sent open interest in perpetual futures plummeting from \$26 billion to under \$14 billion, while decentralized exchange (DEX) trading volume surged past \$177 billion, and crypto lending fees hit an all-time high of \$20 million.

Without real demand, any breakout attempt might lack the strength required to push ETH above key levels.

At the network level, institutional staking could enhance security and protocol stability. However, it may spark concerns about centralization if large funds dominate validator roles. This could affect yields and governance balance. Grayscale’s staking-enabled ETPs will shape upcoming funds, influencing standards for transparency, risk disclosures, taxation and investor safeguards.
