For the bear, here's the but: The setup is more overbought than sustainable. The parabolic structure is fragile. RSI flirts with danger. And crypto markets are notorious for violent reversals.

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.
