Notably, Russia was excluded from the Financial Stability Board's peer review on cross-border regulation, also published Thursday.

"Bitcoin was easy because it's the gold standard for crypto," the continued. "We believe Trump coin is undervalued, considering that it's the coin backed by the President of the United States, who is not only popular in the United States but a global figure respected and followed all over the world."

The relative strength index or RSI also dropped to its lowest level, matching April's low value of 34, following which BTC started to recover in the charts.

Unlike Bitcoin's proof-of-work (PoW) model, which relies on energy-intensive mining, PoS systems operate differently. They depend on staked capital and validator performance rather than computing power. This design makes them far more energy-efficient and accessible to a wider range of participants.
