Chainalysis's findings on Russia's crypto market growth over the past year come amid mounting sanctions and an intensifying regulatory focus in the region. Notably, Russia was excluded from the Financial Stability Board's peer review on cross-border regulation, also published Thursday.

Stadelmann dismissed the idea that open banking offers genuine openness, calling it "a facade all along," and argued that it's "clever marketing," with open banks "no different from big banks at the end of the day" and just as likely to weaponize their systems as seen during Operation Choke Point.

But here's where things get interesting: BNB has been riding a powerful parabolic support line since mid-year. The chart shows a clear parabolic advance—the kind that can deliver explosive gains but also tends to end with equally explosive corrections. Looking at the projection, if this trajectory continues uninterrupted, BNB could be trading near \$2,000 by December 31, potentially delivering another 67% gain from current levels over the next 89 days.
