While we abstract it away in our discussions, this final step, the violence, is the basic quantum of all regulation. And as long as governments have armies, and developers and hackers do not, those who believe code is law will be unable to enforce their priors on the rest of us.

Lee told CNBC after the trading day on Friday that investors were still “licking their wounds” from the record leverage flush, but there was also a bit of “gold envy” as the commodity has been a “huge performer this year.”

In a permissionless chain, the risks are technical and market-driven. In a corporate chain, the risks are regulatory and business-model-driven. Tempo might not rug you technically, but it could kill your yield with a policy update.

“Bitcoin search interest on Google is at bear market levels,” said trader Mister Crypto in an X post on Wednesday, asking:

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

Double tops form an “M” shape near resistance, signaling a potential bearish reversal. Double bottoms form a “W” shape near support, signaling a potential bullish reversal.
