This surge in activity also served as a real-world stress test for the Algorand blockchain. With tens of thousands of participants generating nearly 300,000 transactions, the network maintained its performance. Users experienced the platform's "low fees, instant transaction finality and zero transaction failures" firsthand.

There's a psychological benefit, too. A simple, pre-set routine helps curb fear of missing out (FOMO) on green days and panic on red ones. Instead of reacting to headlines, you stick to the plan.

"Many DeFi platforms performed flawlessly: Uniswap, Hyperliquid, Aave and others reported no losses," he wrote, while noting that Binance and some other exchanges faced issues. "Taken together, crypto did as well or better than traditional markets would have done in the same situation," he said.

"While differentiating between this content is a technical challenge for search engines, we're making ongoing improvements to better surface legitimate content and downrank explicit fake content," Google said. In regards to CSAM, the Google spokesperson said the company takes this subject very seriously and has dedicated an entire team specially to combat this illegal content.
