Comprehensive Guide to how to trade options on binance us

The MACD is a popular momentum indicator used in technical analysis that helps traders identify the strength, direction, and duration of a trend in an asset's price.

Traders would consider this correction healthy, allowing the token to consolidate gains and work off overbought conditions, bringing RSI back to neutral 50-60 territory. If \$1,050 holds, bulls maintain control and the uptrend stays intact for another leg higher.

Stablecoins have quickly emerged as one of the most practical use cases in crypto. Source: a16z Crypto

The next crypto bear market could be particularly brutal and driven by a business cycle downturn that has never been seen in crypto before, according to analyst Willy Woo.

In its initial announcement of Tempo in September, Paradigm outlined its goal was to push forward the technology and adoption of crypto through a “mix of investing, building, and researching.”

Details about how the firm will fund the initiative were not revealed, but it expects to make the first strategic purchase “in the near future.”
