Prosecutors also revealed that the U.S. government has seized more than \$14 billion worth of BTC from Prince Holding, and is currently pursuing the largest forfeiture action in DOJ history.

At the network level, institutional staking could enhance security and protocol stability. However, it may spark concerns about centralization if large funds dominate validator roles. This could affect yields and governance balance. Grayscale's staking-enabled ETPs will shape upcoming funds, influencing standards for transparency, risk disclosures, taxation and investor safeguards.

"We can build, or architect, or code cyberspace to protect values that we believe are fundamental. Or we can build, or architect, or code cyberspace to allow those values to disappear. There is no middle ground. There is no choice that does not include some kind of building. Code is never found; it is only ever made, and only ever made by us."

Unlike a company's stock market cap, which is based on outstanding shares, the market cap of gold is a calculation of the total value of all the gold that has ever been mined; however, it is impossible to know the exact amount.
