Coinbase says the high compliance costs pose "formidable barriers to entry for smaller financial service providers, including fintech startups," and are often passed on to customers through higher banking fees and denial of financial services, particularly affecting low-income customers.

It is not clear which incidents were formally organized by the group and which are the result of other people jumping on the bandwagon.

This suggests that a price rebound may lack the momentum derived from consistent buying pressure, potentially leading to a deeper pullback.

Did you know? Candlestick charts originated in 18th-century Japan, where they were first used to track rice trading, long before making their way into modern crypto markets.
