transactions, the network maintained its performance. Users experienced the platform's "low fees, instant transaction finality and zero transaction failures" firsthand.

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

"We have seen that a number of companies have had success with a crypto strategy," the spokesperson said. "A number of our friends and supporters felt we should engage in that area as well. The board decided to start a conservative approach on this and test waters by buying some Bitcoin and Trump coin."

"Gold is giving us a lesson in statistics," he said, adding that the asset has faced even bigger drawdowns since 1971, with such corrections counting 21 times.
