A Financial Times investigation found that President Trump and his family's crypto businesses have profited \$1 billion pre-tax. When asked if the calculations were accurate, Eric Trump told the publication that the true figure was "probably more."

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

"Since market makers are net long gamma," an increase in Bitcoin's price will most likely be dampened by hedge selling, Dawson said. Similarly, price drops will also be minimized as dealers would be forced to buy to hedge their positions.
