If approved, the proposal will proceed through the Aave Request for Comment (ARFC) stage for community feedback, followed by a Snapshot vote and final onchain governance confirmation. Unlike short-term market interventions, the proposal aims to institutionalize buybacks as a recurring mechanism, essentially making the DAO an active capital allocator.

Liquidity is typically thinnest during weekends and off-hours. Market makers widen spreads to manage risk, and a single headline can move prices beyond key levels before liquidity returns.

“Aussie culture and sense of humour may play into our propensity to engage with meme coin offerings just as much as potential gains. Many see these tokens as a low-stakes way to engage with crypto communities and trends,” he said.
