Bitcoin Miner Bitdeer Aims to Expand US Rig Manufacturing Amid Trump Tariff Headwinds

Crypto markets and stocks have in the past done well in a low interest rate environment. Experts previously told Decrypt that the price of BTC would benefit if lower interest rates.

As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple

booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.

In a Tuesday note, analysts at investment bank Compass Point noted that Galaxy's earnings before interest and taxes came in 236% above Wall Street estimates. They added that the increase in assets on Galaxy's platform will likely cause investors to adjust forecasts higher.
