“Additional rate cuts from the Fed, as well as greater fiscal and monetary stimulus in China, could incentivize more investors to come off the sidelines.”

Unlike a company’s stock market cap, which is based on outstanding shares, the market cap of gold is a calculation of the total value of all the gold that has ever been mined; however, it is impossible to know the exact amount.

There is a clear spectrum emerging. On one end, there are fully decentralized, censorship-resistant protocols. These chains may lack the polish or compliance comfort institutions crave, but they’re the crucibles where real innovation happens.
