ecosystem.

The U.S. economy is staring down a debt-fueled heart attack within the next few years, but that will likely buoy cryptocurrency prices, according to veteran asset manager Ray Dalio.

This measure is a companion to the S8518 Bill, introduced earlier this month by State Senator Liz Krueger, Chair of the Senate Finance Committee, in the New York State Senate.

Bitcoin this year has surged off the back of pro-crypto President Trump's election win and subsequent inauguration. Since taking office, the Republican, who campaigned on a ticket to help the industry, has pushed digital asset-friendly policies, including plans for a strategic Bitcoin reserve.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
