Nasdaq-listed Bitcoin mining company CleanSpark's shares soared over 13% on Monday, after the company announced a strategic expansion into artificial intelligence.

Miners have often had to sell coins or branch into different industries—like high-performance computing for artificial intelligence—to cover operational costs.

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we've answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...

Looking ahead, Liu expects volatility to remain elevated as markets await clearer policy direction. “A more defined macro path or easing US political tension could restore confidence, reviving risk appetite and turning ETF flows back to positive,” he said.
