Japan's new Prime Minister, Sanae Takaichi, announced a package of economic stimulus measures on Tuesday to ease the impact of inflation on households. The move, some crypto observers said, may drive more capital into Bitcoin.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions
