In general, both retail and institutional investors continue to focus on buying and holding tokens for price gains rather than staking them. Operating validator nodes requires substantial capital, technical know-how and uninterrupted uptime. It also exposes participants to risks such as slashing penalties and custody challenges. Additionally, in many jurisdictions, the regulatory treatment of staking rewards remains unclear.

“You should subtract from that number whatever the size of your Ocean investment was,” Wertheimer said of Dorsey’s philanthropic contributions. “Sadly, that capital is being actively deployed to slow down development.”

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.
