Grayscale's introduction of staking-enabled funds marks a key milestone shaped by evolving oversight and growing market competition. The US Securities and Exchange Commission issued guidance for crypto ETPs in May 2025, clarifying that certain custodial staking activities may operate within existing securities laws when managed through regulated custodians and transparent structures. This development has eased earlier barriers that prevented ETFs from earning onchain rewards.

Other users speculated that corporations might create blockchains but then hand the reins to native firms or look to acquire existing blockchains and then scale them up to purpose.

Strategy stock (MSTR) gained 2% on Friday, ending the trading session at \$289.87. However, it has fallen 39% since its all-time high closing price of \$473.83 in November 2024, according to Google Finance.

“If Bitcoin can loosen its correlation with US equities [amid] the tense geopolitical backdrop, particularly if gold flows decelerate, perhaps this is the trade after the trade,” said venture investor Joe Consorti.

The cryptocurrency market in 2025 is increasingly being shaped by institutional adoption and the rise of stablecoins, underscoring rapid advances in blockchain technology capable of supporting broader mainstream use, according to venture capital firm Andreessen Horowitz (a16z).

The rise of NFTs (Non-Fungible Tokens) has brought revolutionary changes to digital content creation and trading. Based on blockchain technology, NFTs ensure the uniqueness and immutability of digital assets, solving the problem of digital content being easily copied. NFTs have a very wide range of application scenarios, including digital art, game items, virtual real estate, music works, etc. The rapid development of the NFT market has attracted the participation of many artists, collectors, and investors, and has also provided creators with new monetization channels. Although there are risks of speculation and bubbles in the NFT market, in the long run, NFTs will inject new vitality into the development of the digital economy.
