Experts say this automation is a crucial source of protection against "the rising tide of software supply chain attacks targeting cryptocurrency," and proves effective even if malware isn't accompanied by social engineering attacks.

Despite the short-term uncertainty over capital rotation, the overall market sentiment remains positive. "It is a very good time for the markets, and is likely going to remain that way for the short-term foreseeable future," Le Shi, managing director at algorithmic trading and market-making firm Auros, told Decrypt in an interview during Token2049 in Singapore last week.
