Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.

Catching a coin's name trending on X or in a Telegram chat isn't enough to justify putting capital at risk. Social buzz moves fast, and most spikes fade before price action catches up, or worse, they might be the result of coordinated shilling. That's why the next step is to turn raw noise into structured signals you can actually rank and compare.

The US dollar's hegemony is over, as evidenced by China's recent announcement of export controls on rare earth minerals, a critical component in electronics manufacturing and military defense applications, according to analyst Luke Gromen.

Offering tokenized stocks has become a point of focus for many U.S.-based crypto companies. Crypto exchange Coinbase has said it wants to tokenize stocks since before its IPO and recently renewed the push. Trading platform Robinhood made waves in early July when its tokenized stock offerings included private companies—namely OpenAI and SpaceX.

To address these concerns, OpenAI said publishers will be able to adopt different strategies when dealing with its search engine and its AI chatbot.
