The approval allows Binance to take majority control of GOPAX, restart operations in Korea, honor repayment pledges to users, and position itself to compete with dominant local exchanges.

The competition began with $200 in starting capital for each bot before increasing to $10,000 per model, with trades executed on decentralized exchange Hyperliquid.

"BTC’s appeal as a safe haven is not only becoming more visible but also more deeply rooted—growing at the same time that confidence in traditional institutions

continues to erode," FRNT Financial Head of Data and Analytics Strah Savinja told Decrypt.

Experts highlight a stark divergence between Ethereum’s bearish options activity and bullish institutional inflows.

That infrastructure is now being extended with their acquisition of 21Shares as a “natural next step” to strengthen market efficiency, Yarlagadda claimed, adding that the move is a “deliberate, long-term investment in building durable enterprise value across market cycles.”
