The emergence of smart contracts has brought revolutionary breakthroughs to blockchain technology. These self-executing computer programs can automatically

trigger corresponding operations when preset conditions are met, without manual intervention. Smart contracts not only improve transaction efficiency but also greatly reduce trust costs. Currently, smart contracts have been widely applied in decentralized finance (DeFi), digital identity authentication, the Internet of Things, and other fields. With the continuous development of technology, the functions of smart contracts will become more powerful, and application scenarios will become more abundant.

He touted BTC as one of the hard money assets that can save the ailing economy, meaning the prices of gold and BTC will continue to rise in the face of currency inflation as individuals and businesses adopt BTC to protect purchasing power.

A Pump.fun livestreaming duo made \$49,000 in crypto token creator fees while one member got slapped by fitness influencer Bradley Martyn after attempting to steal his hat—something he notoriously hates.
