"If there were to be a material flight from the banking system, I would be taking action," Gould said, noting that "highly elected officials" and trade associations would also intervene.

A weakening U.S. dollar, rising governance risks, and yield curve steepening are creating a bullish narrative for Bitcoin, according to a Thursday investment note from Singapore-based QCP Capital.

"Dollar dominance is going to be the opportunity of Ethereum," he said, adding this will be because of "everything becoming...tokenized."
