“I think that most fiat currencies, especially those with large debts, will have problems being effective storeholds of wealth and will go down in value relative to hard currencies,” he said, pointing to parallels between the coming years and two periods in the 20th century.

“This is the largest decline since 1973—more than 50 years ago,” Stephen Gregory, founder of crypto trading platform Vtrader, told Decrypt.

## is binance shutting down

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Look for thin order books and small liquidity pools. Ask Grok 4 to search for reported liquidity pools and automated market maker (AMM) sizes, then verify with onchain queries.

"Bitcoin itself will continue to evolve, and Digital Asset Treasury firms with strong capital bases and trading-savvy management teams may still generate meaningful alpha."
