“Many DeFi platforms performed flawlessly: Uniswap, Hyperliquid, Aave and others reported no losses,” he wrote, while noting that Binance and some other exchanges faced issues. “Taken together, crypto did as well or better than traditional markets would have done in the same situation,” he said.

Why these three? Each has strong brand recognition, decent liquidity and different strengths: BTC as the store-of-value, ETH with its smart contract ecosystem and XRP with fast settlement and cross-border payments. Together, they cover what businesses need: trust, functionality and speed.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

“Creating Tilly has been, for me, an act of imagination and craftsmanship, not unlike drawing a character, writing a role, or shaping a performance,” she said. “She represents experimentation, not substitution.”

The sector continues to grow, with users of prediction market Myriad (launched by Decrypt's parent company Dastan) placing a 55% chance on the market cap of all stablecoins crossing \$360 billion before February 2026.

A repeatable pre-screen process forces discipline: You filter out hype-only tokens, highlight projects with verifiable fundamentals and cut down the time wasted chasing every rumor.
