A Newsmax spokesperson told Decrypt that the purchases will be made from its capital funds, and that the company was inspired by other movers in the treasury space.

Canaan closed about 28% higher by mid-afternoon. CleanSpark, which on Monday announced that it would become the latest publicly traded miner to pivot resources to artificial intelligence-focused projects, was up roughly 4.5%.

Thus, other on-chain analysts have recently floated the idea that the \$14 billion worth of BTC that disappeared in 2020 was potentially never stolen at all; or, alternatively, that the heist was pulled off by the U.S. government, or hackers

working for the government.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
