"We're testing SearchGPT, a prototype of new search features designed to combine the strength of our AI models with information from the web to give you fast and timely answers with clear and relevant sources," OpenAI said in an official blog post.

Select McDonald's outlets in crypto-hot zones accept Bitcoin through payment apps, enabling fast food payments with digital dollars.

Previous instances show that ETH tends to drop sharply when the MACD line (blue) crosses below the signal line (orange). The altcoin's losses have been 46% in mid-2024 and 60% in Q1 2025.

A sufficiently powerful quantum computer could crack the encryption algorithms that underpin cryptocurrencies, and are also used to secure sensitive information in banking, medical and military applications. Encryption is the core component that makes digital assets and peer-to-peer finance possible.
