The turning point: Regulatory and market shifts

The deal is expected to generate a total cumulative revenue of over \$3.5 billion for the world's largest Bitcoin mining firm, during the initial 12-year terms of the contracts, Cointelegraph reported.

Users of prediction market Myriad, launched by Decrypt's parent company DASTAN, place a roughly 60% chance on Bitcoin's dominance surging to 64% instead of dropping down to 54%, down from 69% at the start of the month.

Bitcoin was recently trading at \$111,285, according to cryptocurrency markets data provider CoinGecko, after rising 2% over the past 24 hours. BTC is down more than 10% after reaching an all-time high of \$124,285 last month.

That provides a notable edge when compared to the line on popular sportsbook DraftKings, which lists the Cowboys at +320 or around a 24% chance of knocking off the Eagles.

“It remains unclear how the Bitcoin came to be in U.S. custody,” on-chain intelligence firm Elliptic recently concluded. “It’s also unclear who ‘stole’ the bitcoins from Chen/LuBian or whether a theft really took place.”
