The US government has been shut down since Oct. 1, marking the third-longest closure in US history. It is unlikely there will be a vote on the digital assets market structure bill until it reopens.

This is the latest in a long line of campaigns specifically targeting crypto developers.

This surge in activity also served as a real-world stress test for the Algorand blockchain. With tens of thousands of participants generating nearly 300,000 transactions, the network maintained its performance. Users experienced the platform's "low fees, instant transaction finality and zero transaction failures" firsthand.

Last month, CleanSpark secured a new \$100 million credit line from Coinbase Prime, extending its financing arrangements with the exchange.

An experimental version of the resulting token is already available on the onchain lending protocol Morpho. Still, it is in the testing phase, with a total liquidity in the market of \$14 in USDC
