The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

A co-founder of Bitcoin infrastructure company, Babylon Labs, claims to have built a system that allows for native Bitcoin to be used as trustless collateral to borrow on the Ethereum blockchain.

Such flexible authority chafes libertarians because discretion is power. Laws create arbiters who necessarily have the authority to impose or remove costs from other humans.
