“Dollar dominance is going to be the opportunity of Ethereum,” he said, adding this will be because of “everything becoming...tokenized.”

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.

The sharp increase reflects HMRC’s growing focus on crypto-related tax compliance. Over the past four years, the agency has sent more than 100,000 such letters, with activity accelerating as crypto adoption and asset prices surged.

The rise of NFTs (Non-Fungible Tokens) has brought revolutionary changes to digital content creation and trading. Based on blockchain technology, NFTs ensure the uniqueness and immutability of digital assets, solving the problem of digital content being easily copied. NFTs have a very wide range of application scenarios, including digital art, game items, virtual real estate, music works, etc. The rapid development of the NFT market has attracted the participation of many artists, collectors, and investors, and has also provided creators with new monetization channels. Although there are risks of speculation and bubbles in the NFT market, in the long run, NFTs will inject new vitality into the development of the digital economy.
