Comprehensive Guide to max leverage on binance

"The short-term trend—that began with the big liquidation event earlier this month—is down and traders might want to test the technical support in the \$100,000 and \$3,800 levels for BTC and ETH several times before there's either a sustainable rebound or a sharper move lower," he said.

Elkaleh said both platforms are expanding “beyond sports,” tapping into real-world events like politics and macroeconomics, and evolving into “real-time sentiment tools.”

The Average Directional Index, or ADX, sits at 33, well above the critical 25 threshold that confirms a strong trending market. Think of ADX as your “trend strength meter”—it doesn’t care about direction, just whether a real trend exists. Below 20, you’re in choppy waters where false breakouts are common. Above 25, you’ve got momentum. At 33, BNB is firmly in trending territory, meaning institutions and retail are moving in the same direction, creating sustained buying pressure that can carry prices significantly higher.

One of the key takeaways from the State of Crypto report is that stablecoins are becoming what a16z calls a “global macroeconomic force.” The report notes that more than 1% of all US dollars now exist as stablecoins on public blockchains.

The first incident occurred on July 29, during a game between the Atlanta Dream and Golden State Valkyries, when a bright green dildo bearing the project’s hashtag was thrown onto the court. Several similar disruptions followed and two arrests have been made.

Authority is the emergent product of differing capacities for violence among individuals and groups. This gradient of violence gives rise to coercion, where the possessors of violence impose rules on subjects. And code, while dictating internal rules within its own logic, has no monopoly on violence in the world writ large.
