Grok 4 combines a real-time feed of X conversations with web DeepSearch and a higher-reasoning “Grok Think.” That means you can surface sudden narrative spikes on X, ask the model to search broader web sources for context and request a reasoned assessment rather than a one-line summary. XAI’s product notes and recent coverage confirm that DeepSearch and expanded reasoning are core selling points.

Did you know? Alternative Airlines is a notable example since it supports over 600 airlines globally and allows payment using 100+ cryptocurrencies, including XRP.

"In practical terms, this means HIVE is scaling production of Bitcoin much like a growth business scales output of a core product," he wrote. "Each incremental exahash increases daily production and revenue potential, while our HPC division provides a complementary revenue stream that grows with demand for compute power. "
