“Ethereum could flip Bitcoin similar to how Wall Street and equities flipped gold post 71,” Lee said in an interview with ARK Invest CEO Cathie Wood on Thursday.

Some of the largest Bitcoin miners have announced similar strategic pivots to AI since the beginning of 2024, including Core Scientific, Hut 8 and Iris Energy.

The first, as is highlighted in Craig’s film, is that it is incredibly difficult to build code that is robust enough to regulate human behavior in the range of circumstances it is likely to encounter. This issue comes from a mismatch between the rigid logical nature of code and the fluidity of human behavior.

Grok 4 combines a real-time feed of X conversations with web DeepSearch and a higher-reasoning “Grok Think.” That means you can surface sudden narrative spikes on X, ask the model to search broader web sources for context and request a reasoned assessment rather than a one-line summary. XAI’s product notes and recent coverage confirm that DeepSearch and expanded reasoning are core selling points.

As part of its equity stake announcement, the firm also shared that it is adding Toronto Blue Jays Vice Chairman Roger Rai to its advisory board to advise its sports operations on best practices and commercial partnerships.

The letter says current rules force Americans to complete new KYC checks for every financial account, sharing their data “with dozens of companies” that must store it for years, creating “honeypots for criminals.”
