The repayment deadline was extended by a year to give creditors more time to complete claim procedures. With about \$3.9 billion in Bitcoin still in Mt. Gox-linked wallets, this Halloween may again spark concerns about possible sell pressure.

Experts say this automation is a crucial source of protection against "the rising tide of software supply chain attacks targeting cryptocurrency," and proves effective even if malware isn't accompanied by social engineering attacks.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.
