The National Hockey League has inked multi-year licensing agreements with prediction market startups Kalshi and Polymarket, marking the first time a major U.S. professional sports league has authorized these platforms to use its trademarks.

Jonathan Gould, head of the Office of the Comptroller of the Currency, told attendees at the American Bankers Association Annual Convention in Charlotte on Monday that any material deposit flight "would not happen in unnoticed fashion" and "would not happen overnight."

The in-kind structure provides a tax advantage. In a traditional “cash” ETF, funds must sell assets to meet redemptions, which triggers capital gains that are passed on to shareholders.

Ethplorer has established a distinct role within the Ethereum ecosystem by focusing on token-centric data. It provides a clear view of token transactions and wallet activity, making it especially useful for DeFi users and NFT collectors.

The cumulative total net inflow in spot Bitcoin ETFs now stands at \$61.50 billion, with total net assets slipping to \$149.66 billion, or about 6.76% of Bitcoin’s market capitalization.

As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.
