The U.S. government is spending more money than it's taking in, while servicing enormous amounts of debt. And as the government borrows more to cover budget shortfalls, while managing its existing burden, creditors could eventually cause trouble, Dalio said.

Weekly prediction market volume set a new high-water mark above \$2 billion as Polymarket retakes its lead over competitor Kalshi, according to Dune Analytics data. Both Polymarket and Kalshi have experienced massive increases in user activity and trading volume over the last several months, as prediction markets as a whole gain broader mainstream awareness and adoption. Kalshi, as the first federally regulated prediction market platform in the U.S., saw a leap in user

“Summarize the white paper for [TICKER] into 8 bullet points: use case, consensus, issuance schedule, vesting, token utility, known audits, core contributors, unresolved issues.”

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

Recently, though, Bitcoin ETFs have been rebounding after lagging compared to Etheruem ETFs. BTC funds have just recorded two consecutive days of inflows exceeding \$300 million, totaling \$633.3 million across both sessions—the strongest two-day performance since early August.

Wall Street and the crypto world have long operated in separate spaces. While Wall Street was defined by traditional finance and clear regulatory norms, the crypto industry evolved around decentralized systems and shifting regulations. That divide is now narrowing, thanks to the launch of the first publicly traded investment vehicle dedicated to staking cryptocurrency.
