to help secure and validate transactions on proof-of-stake (PoS) blockchains. In return, participants earn rewards — similar in concept to earning interest — for supporting network operations.

His remarks come as the banking industry has spent months demanding Congress close loopholes in the GENIUS Act, the nation's first major stablecoin legislation signed into law in July.

"The number of new packages that get published on a daily basis is posing a challenge for security organizations, and ML model-based detection is currently the best answer that the security industry can provide," ReversingLabs engineer Karlo

Zanki said.

“Many DeFi platforms performed flawlessly: Uniswap, Hyperliquid, Aave and others reported no losses,” he wrote, while noting that Binance and some other exchanges faced issues. “Taken together, crypto did as well or better than traditional markets would have done in the same situation,” he said.

This infrastructure forms a critical bridge for crypto adoption, enabling users to connect traditional bank accounts to digital asset exchanges, connections that could otherwise be blocked by banking executives hostile to crypto.

A repeatable pre-screen process forces discipline: You filter out hype-only tokens, highlight projects with verifiable fundamentals and cut down the time wasted chasing every rumor.
